

Amendment 004 to solicitation W0107-24-J333/C has been raised to:

- 1- Answer questions raised from Industry

QUESTIONS RECEIVED DURING SOLICITATION W0107-24-J333/A:

Q4:

Given delivery is in March, carrying office chairs 100' to the building from a 53-foot trailer could prove problematic based on weather. Could you provide a satellite image of the building area so we can plan truck size and truck count, and possibly estimate how close a smaller truck can get to the building?

A4:

Map Attached, not very good, but you will see there is parking all around the building.

Q5:

Do all chairs need to be carried up stairs? And how many steps are involved? Are the steps indoors or outdoors?

A5:

Steps into the building, they are easy steps with flat landings, there is really no stairs, they are steps into MODS. The plan is for the company to bring the chairs in, assemble them and our staff would move them to the rooms.
