SI07 BID EVALUATION AND BASIS OF SELECTION

1. Phase One:

Phase One bids must comply with the requirements of the invitation to tender and meet all mandatory requirements included in the Phase One qualification form to be declared responsive. Phase One bids which fail to meet these requirements will be declared non-responsive and will not be given further consideration. The Contracting Authority will advise all Phase One Bidders of the results of their Phase One bid submission. The Contracting Authority will only invite the responsive Phase One Bidders to bid on Phase Two.

2. Phase Two:

- a. The Contracting authority will send the Phase Two documentation to the Phase One responsive Bidders.
- b. The Phase Two bids must comply with all of the Phase Two requirements of the invitation to tender to be declared responsive. Phase Two bids which fail to meet these requirements will be declared non-responsive and will not be given further consideration. The responsive Phase Two bid carrying the lowest price will be recommended for contract award.
- c. If at any point in the evaluation process Canada finds, whether by determination of invalidity of certifications, determination that bids from Indigenous businesses are non-responsive or withdrawal of bids by Indigenous businesses, such that fewer than two (2) or more responsive bids from Indigenous businesses remain, the Contracting Authority will consider all responsive bids, including those submitted by non-Indigenous businesses, and these bids will be then eligible to be awarded a contract.

3. Price Support

- a. CSC may, but will have no obligation to, request price support for any fees proposed (including, but not limited to lump sum fees, unit prices) when there are less than 3 responsive Phase Two Bidders. CSC reserves the right, at its sole discretion, to request price support from one or more of the responsive Phase Two Bidders. Responsive Phase Two Bidders must provide, at CSC's request, one or more of the following price support documents, if applicable:
 - i. Copies of paid invoices for the like quality and quantity of the goods, services or both sold to other customers within 2 years prior to the Phase Two bid solicitation issuance date; or
 - ii. A price breakdown that includes, but is not limited to, the cost of direct labour, direct materials, purchased items, engineering and plant overheads, general and administrative overhead, transportation, profit; or
 - iii. Price or rate certifications; or
 - iv. Any other supporting documentation as requested by CSC.
 - b. Once CSC requests price support for the fees proposed, it is the sole responsibility of the Phase Two Bidder to submit information (as described above and as otherwise may be requested by CSC) that will allow CSC to determine whether it can rely, with confidence, on the Phase Two Bidder's ability to provide the required services at the fees proposed. Where CSC determines, at its sole discretion, that the information provided by the Phase Two Bidder does not substantiate the fees proposed, the Phase Two bid will be considered non-responsive and will receive no further consideration.
4. CSC will send an official letter by email to unsuccessful Phase Two bidders to inform them of the name of the winning Bidder as well as the total contract value.

SI08 INSUFFICIENT FUNDING

In the event that the lowest compliant bid for Phase Two exceeds the amount of funding allocated by Canada for the Work, Canada in its sole discretion may:

- a. cancel the solicitation; or
- b. obtain additional funding and award the Contract to the Bidder submitting the lowest compliant bid.

SI09 BID VALIDITY PERIOD

A. Phase One

Phase One Bids will remain open for acceptance for a period of not less than 60 days from the closing date of the invitation to tender Phase One. Canada reserves the right to seek an extension of the bid validity period from all Phase One responsive Bidders in writing, within a minimum of 3 days before the end of the bid validity period. If the extension is accepted by all responsive Bidders, Canada will continue with the evaluation of the bids. If the extension is not accepted by all responsive Bidders, Canada will, at its sole discretion, either continue with the evaluation of the bids of those who have accepted the extension or cancel the solicitation.

B. Phase Two

1. Canada reserves the right to seek an extension to the Phase Two bid validity period prescribed in BA04 of the Phase Two Bid and Acceptance Form. Upon notification in writing from Canada, Bidders will have the option to either accept or reject the proposed extension.
2. If the extension referred to in paragraph 1 above is accepted, in writing, by all those who submitted Phase Two bids, then Canada will continue immediately with the evaluation of the Phase Two bids and its approvals processes.

 - a. Reject any or all bids received in response to the bid solicitation;
 - b. Enter into negotiations with bidders on any or all aspects of their bids;
 - c. Accept any bid in whole or in part without negotiations;

SI11 DEBRIEFINGS

A. Phase One

Bidders may request a debriefing on the results of the Phase One bid solicitation process. The debriefing may be in writing, by telephone or in person.

B. Phase Two

CSC will not provide debriefings for Phase Two bids as they are price only bids. In accordance with SI07 Bid Evaluation and Basis of Selection, following contract award, the Phase Two bid results will be sent to Phase Two Bidders.

SI12 BID CHALLENGE AND RECOURSE MECHANISMS

- a. Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including contract award.
- b. Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. Canada's [Buy and Sell](#) website, under the heading "[Bid Challenge and Recourse Mechanisms](#)" contains information on potential complaint bodies such as:
 - Office of the Procurement Ombudsman (OPO)
 - Canadian International Trade Tribunal (CITT)
- c. Suppliers should note that there are **strict deadlines** for filing complaints, and the time periods vary depending on the complaint body in question. Suppliers should therefore act quickly when they want to challenge any aspect of the procurement process.

SI13 CONSTRUCTION DOCUMENTS

After contract award, the Contractor will be provided with one electronic or paper copy of the sealed and signed drawings, the specifications and any addenda issued during the solicitation period. Additional copies, up to a maximum of one (1), will be provided free of charge upon request by the Contractor. Obtaining more copies will be the responsibility of the Contractor including costs.

CSC may furnish additional drawings for clarification. These additional drawings will have the same meaning and intent as if they were included in the original plans referred to in the Contract Documents.

The Contractor must check the existing building dimensions before starting work and ordering any materials. The Contractor must report discrepancies affecting the work shown on the drawings to the CSC Project Manager for clarification and final decision. It is the responsibility of the Contractor to visit the site personally to verify or obtain dimensions. Any dimensions given are approximate and CSC assumes no responsibility for the accuracy of these dimensions.

PUBLIC WORKS AND GOVERNMENT SERVICES CANADA APPRENTICE PROCUREMENT INITIATIVE

1. To encourage employers to participate in apprenticeship training, Bidders, bidding on construction and maintenance contracts by Public Works and Government Services Canada (PWGSC) are being asked to sign a voluntary certification, signaling their commitment to hire and train apprentices.
2. Canada is facing skills shortages across various sectors and regions, especially in the skilled trades. Equipping Canadians with skills and training is a shared responsibility. The Government of Canada made a commitment to support the use of apprentices in federal construction and maintenance contracts. Contractors have an important role in supporting apprentices through hiring and training and are encouraged to certify that they are providing opportunities to apprentices as part of doing business with the Government of Canada.
3. The Government of Canada is encouraging apprenticeships and careers in the skilled trades. In addition, the government offers a tax credit to employers to encourage them to hire apprentices. Information on this tax measure administered by the Canada Revenue Agency can be found at: www.cra-arc.gc.ca. Employers are also encouraged to find out what additional information and supports are available from their respective provincial or territorial jurisdiction.
4. Signed certifications on page 2 of 2 will be used to better understand contractor use of apprentices on Government of Canada maintenance and construction contracts and may inform future policy and program development.
5. The Contractor hereby certifies the following:

In order to help meet demand for skilled trades people, the Contractor agrees to use, and require its subcontractors to use, reasonable commercial efforts to hire and train registered apprentices, to strive to fully utilize allowable apprenticeship ratios * and to respect any hiring requirements prescribed by provincial or territorial statutes.

The Contractor hereby consents to this information being collected and held by PWGSC, and Employment and Social Development Canada to support work to gather data on the hiring and training of apprentices in federal construction and maintenance contracts.

To support this initiative, a voluntary certification signaling the Contractor's commitment to hire and train apprentices is available at page 2 of 2.

If you accept fill out and sign page 2 of 2.
