Title:
Stage 1 - Road restoration 5.9 km, Forillon National Park

Amendment 001

This amendment is raised to answer questions from bidders.

A. Questions and Answers

Q1. Concerning the following acceptance criterion;

Of the two (2) projects required, at least one (1) must demonstrate the following experience :

- Restoration of wetlands or riverbanks, or aquatic AND forest environments with work involving **beaver habitat**

Is it possible to elaborate a little more on "beaver habitat"? The term is broad and we just want to make sure we're submitting the right associated project.

Basically, do you want a project where the beaver was directly involved, or do you consider that a project with an aquatic environment in a forest environment in the Gaspésie region is automatically considered a beaver environment?

A1. A simple project with an aquatic environment in a forested area of the Gaspésie region is not enough. The beaver habitat (beaver pond with active hut and on-site beaver colony) must be an integral part of the project.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED.
