Insert: Solicitation closes at 2:30 p:m on **March 7, 2024**.

2. At the Annex A – Statement of Requirement:

Delete: Para 2.0 Requirement

Insert: para 2.0 Requirement as follows:

SPMD has a requirement for the Collection, Transport and Disposal of various Hazardous Waste products and materials located at Government facilities located in Ontario.

The Hazardous Waste for Disposal outlined in this requirement includes a variety of products and materials. Any single Service Request may include multiple types of substances or materials. The general material description will be provided in each request for service.

Each Service Request may include either all Service Request products and materials; or a mixture of hazardous and non-hazardous products and materials. For safety, security and observation of environmental precautions, where the service request includes a combination of hazardous and non-Service Request, the Service Request must be treated as and considered **Hazardous Waste**.

Examples of material and products that may be included in the disposal requests include but are not limited to the following:

- Tobacco
- Paints and Solvents
- Vapes
- Electronics
- Mercury containing Devices
- Alcohol
- Chemical Waste
- Medications and Cosmetics
- Batteries

- Herbicides, Pesticides, Fertilizers
- Aerosols

The types and scope of Hazardous Waste for this requirement must be in accordance with the **EW479-162880** Hazardous Waste Supply Arrangement

3. At the Annex A – Statement of Requirement

Delete: Para 2.2.2 in its entirety.

Insert:

The Service Request products and materials for disposal will be packaged in individual boxes, drums, containers, or secured on pallets sized approximately two feet by four feet (2'x4') or four feet by four feet (4'x4'). The method of containment will be described in each Service Request including the type of container(s), the number of boxes, drums, containers or pallets, and the estimated total weights and approximate dimensions of the containers.

The Contractor must provide all material handling equipment required for the collection, transport and disposal of the Service Request, including as required, **front end loader or forklift, hand truck, dollies etc. Such equipment is not available at the GOC facilities and will not be supplied by Canada.**

4. At the Annex A – Statement of Requirement:

Insert: Para 2.2.2.1 as follows:

2.2.2.1 Material Handling – Re-packaging

The Project Authority will make every effort to assess any products or substances that require re-packaging prior to transport and notify the Supplier of this in the Service Request. In some cases, pictures of the items to be collected are available and will be provided to the Supplier with the Service Request.

If upon receipt of the Service Request, or upon arrival at the pick-up site, the Contractor identifies materials, products or substances that require immediate re-packaging for health and work safety or safe transport, the Contractor must notify the Project Authority immediately. The Contractor must provide the required containers and supplies necessary for the repackaging and safe transport as negotiated with the Project Authority. The cost of the additional packaging must be invoiced as a separate line item on the invoice. The re-packaging must be conducted either on the Contractor's Transport vehicle or at the Contractor's premises and not inside the GOC facility.
