

**AMENDMENT 002 - ATSSC – RFP/ SCDATA – DDP #20232010**

---

**The purpose of Amendment 002 is to:**

- 1) Answer a question from the industry;
- 

1)

**Question 1:**

We rarely produce hard copy transcripts anymore, as almost all of our government and private-sector clients have moved to electronic-only delivery to save resources. This is particularly the case with next-day transcript delivery, since hard copies need to be physically shipped. Is there an option for electronic-only delivery of transcripts? If not, how often will you require hard copies of transcripts to be produced?

**Answer 1:**

Request for production of hard copy transcripts is very rare and is going to be the exception. Should there be a need to produce hard copy transcripts, the supplier will be notified in advance of the requirement.

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED**
