When only 2 bids are responsive to the mandatory technical criteria, the higher priced bid may be selected if its price is within 25% of the lowest priced bid.

Bids not meeting (i) or (ii) or (iii) or (iv) or (v) will be declared non-responsive. <u>Minimum mandatory</u> <u>criteria</u> for THS categories can be found on the <u>THS for the NCR website</u>.

## Additional mandatory criteria

Number	Additional mandatory criteria (maximum of two (2) extra)	Cross reference to proposal [bidder to insert]
M1	Must clearly demonstrate a minimum of 5 years experience working with Canadian Armed Forces networks.	bidder to insert
M2	Must clearly demonstrate minimum of 2 years experience working with military computer applications such as Command and Control, Targeting, or Logistics software.	bidder to insert

#### Security Requirement\*\*:

Number	Security Requirement as per the SRCL Form in Annex C	Comments
1	The bidder must hold a valid <b>Secret</b> organization security clearance as indicated in Annex C.	Fill out the Security Clearance Form attached
2	The contractor or organization must be registered in the Controlled Goods Program of the CSP, PWGSC. <b>(Secret – FSC)</b>	Provide the Controlled Goods Program Certificate and GC# if applicable.

# \*\*While we do accept pending security clearance / pending registered controlled goods program certificate as per Section 6.1 in Part B, the Contracting Authority may deem a bid nonresponsive if failing to meet the security requirement in time for the proposed start date.

The bidder must clearly demonstrate how they meet each mandatory criteria. Bidders are advised that only listing experience without providing any supporting information or reusing the same wording as the RFP, will not be considered "demonstrated" for the purpose of this evaluation.

For each resume submitted, the bidder must ensure that:

- the proposed individual's name is clearly indicated
- the resume clearly states where, when and how the stated qualifications/experience of the individual were acquired, including contact information of a reference that can confirm the information provided
- the resume clearly demonstrates duties and relevance to the requirements

Furthermore, bidders are also advised that the month(s) of experience listed for a project whose timeframe overlaps that of another referenced project, will only be counted once.

Canada retains the right to conduct interviews with the resource to confirm submitted information and assess availability.

In the event that the provided information is found to be invalid, Canada reserves the right to declare the bid non-compliant.

#### Right-fit justifications allowed to select the proper resource

Department of National Defence (DND) will select the successful bid on basis of right-fit from among the responsive bids. One or more justification(s) from amongst any of the justification(s) below will be used to determine the successful bidder in terms of meeting the right-fit basis of selection:

- Specialized education which will improve the quality of services to be provided
- Additional certifications which will improve the quality of services to be provided
- Additional experience which will improve the quality of services to be provided
- Knowledge of relevant government policies or procedures which will improve the quality of services to be provided
- Better proficiency in one or both official languages which will improve the quality of the services to be provided

Interviews may be administered to select the best resource from among the bids determined as responsive according to the rules above.

The responsive bid determined to correspond to one or more of the right fit justification(s) will be selected for award of a contract.

#### 1.1 Example of basis of selection – Right-fit

Category	Bid A	Bid B	Bid C	Bid D	Median price	Lowest price
Data entry clerk, Jr	\$ 25.00	\$ 21.87	\$ 18.00	\$ 26.00	\$ 23.44	\$ 18.00

The median price is calculated as follows:

Order the bids from lowest to highest: **\$18, \$21.87, \$25, and \$26** 

The median price = {(n + 1)  $\div$  2}, where "n" is the number of bids = {(4+1)  $\div$  2} = 2.5

\$21.87 is in the 2nd position and \$25 is in the  $3^{rd}$  position, so 2.5 is the price halfway between these = **\$23.44**.

Category	Lower median limit (- 20%)	Upper median limit (+20%)	Within median band	Lowest price +25%	Within 25% band
Data Entry Clerk, Jr	\$ 18.75	\$ 28.12	A,B,D	\$ 22.50	B and C

## Ineffective median band situation (All compliant bids fall outside of the median band):

When and only when three (3) or more compliant bids result in a median band that excludes all bidders, Canada may, but will have no obligation to, either cancel the request for proposal and resolicit or decide to select a bidder among all otherwise compliant bids using one or more of the five right fit justification(s).

In addition, Canada may, but will have no obligation to, require price support information. If Canada requests price support, the bidder must provide at a minimum an invoice (referencing a contract serial number or other unique contract identifier) that shows that the bidder has provided and invoiced a customer (with whom the bidder deals at arm's length) for services performed for that customer similar to the services that would be provided in the National Capital Region.

#### 2. In the case of an identical resource or identical resources proposed by more than one bidder

Following validation of the consent or proof of employment, if the successful bidder's proposed resource withdraws or becomes unable to provide the services before the contract award, the resource will no longer be considered from any other bidder who offered that same resource for the performance of the contract.

## 3. Replacement of a resource prior to contract award

If the successful bidder's proposed resource recommended for the contract award withdraws and/or becomes unable to provide its services for the performance of the contract, at any time between the closing date and time of the RFP and the award of the contract, the bidder must immediately inform the contracting authority of the reason for the replacement.

If the contracting authority opts to allow for a replacement instead of progressing to the next compliant bidder, the successful bidder is required to propose, at the same hourly rate specified in its bid, a replacement who must:

- 1- Meet all mandatory requirements outlined in the RFP;
- 2- Obtain, at minimum, the same score under the point-rated criteria, if applicable;
- 3- Holds, at minimum, the same qualifications and experiences of the originally proposed resource.

Upon request by the contracting authority and within the time allowed (minimum of one business day), the bidder must provide the necessary information to allow assessment of the replacement, including but not limited to, its name, qualifications and experience. Failure to respond to the request will result in the bid being declared non-responsive.

#### 4. Bid challenge and recourse mechanisms

Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including contract award.

Canada encourages suppliers to first bring their concerns to the attention of the contracting authority. Canada's <u>Buy and Sell</u> website, under the heading "<u>Bid Challenge and Recourse Mechanisms</u>" contains information on potential complaint bodies such as:

- Office of the Procurement Ombudsman (OPO)
- Canadian International Trade Tribunal (CITT)

Bidders should note that there are **strict deadlines** for filing complaints, and the time periods vary depending on the complaint body in question. Bidders should therefore act quickly when they want to challenge any aspect of the procurement process.
