

An advanced contract award notice (ACAN) is a public notice indicating to the supplier community that a department or agency intends to award a contract for goods, services or construction to a pre-identified supplier, thereby allowing other suppliers to signal their interest in bidding, by submitting a statement of capabilities. If no supplier submits a statement of capabilities that meets the requirements set out in the ACAN, on or before the closing date and time stated in the ACAN, the contracting officer may then proceed with the award to the pre-identified supplier.

1. Definition of the requirement:

The Correctional Service Canada has a requirement to ensure that offenders have reasonable access to Indigenous-specific resources in the community.

The nature of Iqaluit means that a loss of culture is happening rapidly with fewer and fewer people being able to maintain the traditional Inuit connection with the land, which is at the core of Inuit identity. It means that people in Iqaluit experience a disconnection with their culture in a much more significant way than in other smaller communities.

The work will involve the following:

1.1 Objectives:

Improve CSC's ability to return Indigenous offenders to their home communities with Section 84 release plans through contracts for Reintegration Support in remote communities. This contract will serve to increase CSC's capacity to engage Indigenous communities in the section 84 process, and identify and coordinate community resources for offenders.

1.2 Tasks:

The contractor must:

- 1.2.1 Provide community education and information about Section 84, Section 81, and CSC's Indigenous Continuum of Care and interventions.
- 1.2.2 Identify resources and community contacts that may be used by CSC personnel when preparing a release plan for an offender.
- 1.2.3 Work with communities and organizations to establish a process for CSC engagement on corrections.
- 1.2.4 Provide information that will assist CSC personnel to develop a section 84 release plan. CSC personnel, such as: Parole Officer or Aboriginal Community Development Officer (as per CSC policy CD 712-1).
- 1.2.5 On mutual agreement, perform additional tasks as requested by the Contract Authority.

1.2.6 Collect information and prepare quarterly reports on the following activities:

- a. contacts with CSC personnel.
- b. community contacts, including names and contact information.
- c. an updated resource list, including, at a minimum, reintegration support services, such as addictions services, housing, Elder supports.

1.3 Expected results:

To help dysfunctional individuals and families to reclaim their independence and develop greater self-esteem and resiliency through programs and services that are based in traditional Inuit societal values and delivered

by respected Inuit elders. This will result in more functional and cohesive families, improved interpersonal and familial communications, improved lifestyle choices, a reduction in high risk and criminal behaviours and increased pride in the Inuit language and culture.

To reduce the frequency of both family breakdown and child apprehension. To enhance mental health, social services, justice, and children's and family service programs offered by the Governments of Nunavut and Canada

1.4 Deliverables:

- 1.4.1 To provide offenders with access to the following culturally relevant practical support and assistance programs and services that are based on traditional Inuit societal values:
- a. One-on-one and group counselling.
 - b. Opportunities for those with multiple risk factors to build basic life skills such as literacy, budgeting, interpersonal communications and productive lifestyle choices.
 - c. Mental health services to complement the extremely limited mental health services currently available in Iqaluit from government or other sources, to help address the urgent need and high level of demand for these services in Iqaluit.
 - d. Individual, family and group counselling; and individual, couple and group healing sessions focusing on the areas of alcohol and drug addictions and rehabilitation, trauma, grief, anger management, parenting, and relationship and family issues.
 - e. Counsellors and Elder advisors who have received training in mental health first aid in order to better prepare them to assist suicidal clients.
 - f. Programs that provide an essential connection to culture, a therapeutic key to healing, skills development, and identity and confidence building.

The programming components listed above are inter-related and complementary. Their interaction has a synergetic effect on the healing and renewal processes that participants experience, and prolongs their involvement in the wellness programs offered by the Contractor. They are firmly based on Inuit societal values and on traditional Inuit approaches to counselling and well-being. Because each of their facilitators, counsellors and Elder advisors work primarily in Inuktitut, communication barriers are reduced.

- a. Should printed material be required, double sided printing in black and white format is the default unless otherwise specified by the Project Authority.
- b. The Contractor must ensure printed material is on paper with a minimum recycled content of 30% and/or certified as originating from a sustainably managed forest.
