Signature		Date

This amendment is raised to address the following:

- To respond to questions received during the solicitation period
- To revise the solicitation accordingly, as applicable.

QUESTIONS AND ANSWERS

Question 1:

Technical requirement M20 says "RPAS must contain ground control station with integrated screen with a size of at least 5.5 inches and a minimum resolution of 1920x1200 pixels."

I just wanted to clarify that the DJI Mavic 3 Thermal uses the RC Pro Enterprise controller, which as a screen resolution of 1920x1080.

Answer 1:

The correct minimum resolution should be 1920 x 1080 pixels.

Question 2:

3. Control station minimum specifications

RPAS must have a control station with a high-definition multimedia interface (HDMI) output and onboard minimum 64GB memory card storage.

Are you requesting to have a removable 64 GB memory card storage slot on the control station? Or the controller should have a 64GB memory internally?

Answer 2:

The control station should have a card storage slot on the device to allow a minimum of 64GB memory card to be inserted and used.

SOLICITATION REVISIONS

1) On page 24,5.1 RPAS System, 3(e)

DELETE:

RPAS must contain ground control station with integrated screen with a size of at least 5.5 inches and a minimum resolution of 1920x1200 pixels.

INSERT:

RPAS must contain ground control station with integrated screen with a size of at least 5.5 inches and a minimum resolution of 1920x1080 pixels.

2) On page 28, Mandatory Criteria, M20

DELETE:

RPAS must contain ground control station with integrated screen with a size of at least 5.5 inches and a minimum resolution of 1920x1200 pixels.

INSERT:

RPAS must contain ground control station with integrated screen with a size of at least 5.5 inches and a minimum resolution of 1920x1080 pixels.
