Title: HVAC and Electrical Upgrade at the Embassy of Canada to South Africa, in Pretoria

Solicitation Number: 24-263048

The following Questions & Answers is in link with the solicitation document mentioned above.

Questions & Answers # 4

- Q50.** “In the tender document, Article 3.0 Mandatory Requirements, criterion M2 states that “*The Bidder must have the capacity to carry out the required works on site in Pretoria, South Africa*”. This wording seems to target contractors, since architects and engineers provide services and do not carry out any work. Do you mean instead that the team of architects and engineers will have to demonstrate that it is able to monitor the work, without having to use a contractor as a subcontractor?”
- A50.** The A&E firm requires to have the physical capacity to carry the Design task on site as required (Site survey, site reviews).
- Q51.** “We would like to request an extension on closing date for above mentioned Solicitation by 2 weeks please.”
- A51.** At present, we’re adhering to a specific timeline and will not extend the closing date.
