Amendment 002 is raised to address the following Questions

Q1: Re chairs C1 and C2. The stitch detailing on our standard approved models will not allow the guard strips as indicated as additional criteria and this may be a manufacturer-specific feature. We request that you also accept our standard heavy-duty abrasion-resistant PVC-free Polyurethane that can be upholstered over the entire seat and back at 1,000,000 double rubs.

A: Q1: We will accept the proposed alternate.

Q2: Re. C3 and C5, we respectfully ask the CA to also accept a sled base option where all other criteria is met.

A: Q2: This is acceptable

Q3: Re. C4 we respectfully ask that the CA also accept a fold-away T-arm that was developed for police and military applications to fold back and away from the backrest to allow barrier-free clearance for equipment and pistol belts. This arm also meets all the minimum SA arm requirements.

A: Q3: This is acceptable

Q4: Re. C7 and C8, will the CA respectfully also accept a plastic base as its better value for Canada and meets and exceeds all the same BIFMA testing of the metal base?

A: Q4: This is acceptable

Q5: Chair C7 asks for min. 1000,000 dr – if this chair is to be mesh, there would be no upholstery... If client does want upholstery, manufacturers grade differently so do they want 100,000 dr's or a grade 10?

A: Q5: Chair is to be mesh.
