## PART 2 - OFFEROR INSTRUCTIONS

### 2.1 Standard Instructions, Clauses and Conditions

- A. All instructions, clauses and conditions identified in the Request for Standing Offers (RFSO) by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.
- B. Offerors who submit an offer agree to be bound by the instructions, clauses and conditions of the RFSO and accept the clauses and conditions of the Standing Offer and resulting contract(s).
- C. The [2006 \(2023-06-08\)](#) Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the RFSO, with the following modification(s):

  - (ii) Section 05, Submission of offers, subsection 2, paragraph d., is deleted in its entirety and replaced with the following:
    - d. send its offer only to the Department of National Defence location specified on page 1 of the RFSO or to the address specified in the RFSO.
  - (iii) Section 05, Submission of offers, subsection 2, paragraph e., is deleted in its entirety and replaced with the following:
    - e. ensure that the Offeror's name, return address, RFSO number, and RFSO closing date and time are clearly visible on the offer;
  - (iv) Section 05, Submission of offers, subsection 4, is amended as follows:
    - Delete: 60 days
    - Insert: 120 days
  - (v) Section 06, Late offers, is deleted in its entirety;
  - (vi) Section 07, Delayed offers, is deleted in its entirety and replaced with the following:
    - 07 Delayed offers
      - 1. It is the Offeror's responsibility to ensure that the Contracting Authority has received the entire submission. Misrouting or other electronic delivery issues resulting in late submission of offers will not be accepted.
  - (vii) Section 08, Transmission by facsimile, is deleted in its entirety; and
  - (viii) Section 20, Further information, is deleted in its entirety.

## D. Technical Difficulties of Bid Transmission

Despite anything to the contrary in (05), (06) or (08) of the Standard Instructions, where an Offeror has commenced transmission of its offer through an electronic submission method (such as facsimile or Canada Post Corporation's (CPC) Connect service, or other online service) in advance of the RFSO closing date and time, but due to technical difficulties, Canada was unable to receive or decode the entirety of the offer by the deadline, Canada may nonetheless accept the entirety of the offer received after the RFSO closing date and time, provided that the Offeror can demonstrate the following:

- (i) The offeror contacted Canada in advance of the RFSO closing date and time to attempt to resolve its technical difficulties; OR
- (ii) The electronic properties of the offer documentation clearly indicate that all components of the offer were prepared in advance of the RFSO closing date and time.

## E. Completeness of the offer

After the closing date and time of this RFSO, Canada will examine the offer to determine completeness. The review for completeness will be limited to identifying whether any information submitted as part of the offer can be accessed, opened, and/or decoded. This review does not constitute an evaluation of the content, will not assess whether the offer meets any standard or is responsive to all solicitation requirements, but will be solely limited to assessing completeness. Canada will provide the Offeror with the opportunity to submit information found to be missing or incomplete in this review within two business days of notice.

Specifically, the offer will be reviewed and deemed to be complete when the following elements have been submitted by the Offeror:

1. That certifications required at RFSO closing date are included.
2. That offers are properly signed, that the offeror is properly identified.
3. Acceptance of the terms and conditions of the RFSO and resulting contract.
4. That all documents created prior to RFSO closing date but due to technical difficulties Canada was unable to receive them, have been properly submitted and received by Canada.
5. All certifications, declarations and proofs created prior to RFSO closing date but due to technical difficulties Canada was unable to receive them, have been properly submitted and received by Canada.

### 2.2 Submission of Offers

- A. Offers must be submitted only to the Department of National Defence (DND) by the date, time, and place indicated on page 1 of the RFSO.
- B. Due to the nature of the RFSO, offers transmitted by facsimile will not be accepted.

#### 2.2.1 Electronic Submissions

- A. Individual e-mails that may include certain scripts, formats, embedded macros and/or

**links, or those that exceed five (5) megabytes may be rejected by Canada's e-mail system and/or firewall(s) without notice to the Bidder or Contracting Authority.** Larger offers may be submitted through more than one e-mail. Canada will confirm receipt of documents. It is the Offeror's responsibility to ensure that their entire submission has been received. Offerors should not assume that all documents have been received unless Canada confirms receipt of each document. In order to minimize the potential for technical issues, offerors are requested to allow sufficient time before the closing date and time to confirm receipt. Offer documents **submitted** after the closing time and date will not be accepted.

### 2.3 Enquiries - Request for Standing Offers

- A. All enquiries must be submitted in writing to the Standing Offer Authority no later than 15 calendar days before the Request for Standing Offers (RFSO) closing date. Enquiries received after that time may not be answered.
- B. Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all offerors. Enquiries not submitted in a form that can be distributed to all offerors may not be answered by Canada.

### 2.4 Applicable Laws

- A. The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario **Ontario [or as specified by the offeror in its offer, if applicable].**
- B. Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the offerors.

### 2.5 Bid Challenge and Recourse Mechanisms

- A. Several mechanisms are available to potential offerors to challenge aspects of the procurement process up to and including contract award.
- B. Canada encourages offerors to first bring their concerns to the attention of the Contracting Authority. Canada's [Buy and Sell](#) website, under the heading "[Bid Challenge and Recourse Mechanisms](#)" contains information on potential complaint bodies such as:
  - Office of the Procurement Ombudsman (OPO)
  - Canadian International Trade Tribunal (CITT)
- C. Offerors should note that there are **strict deadlines** for filing complaints, and the time periods vary depending on the complaint body in question. Offerors should therefore act quickly when they want to challenge any aspect of the procurement process.

- C. Acceptance of Electronic Payment Instruments will not be considered as an evaluation criterion.

##### **3.3.2 Exchange Rate Fluctuation**

**4.1.2 Financial Evaluation**

A. The price of the offer will be evaluated as follows:

- (i) Canadian-based offerors must submit firm prices, Canadian customs duties and excise taxes included, and Applicable Taxes excluded.
- (ii) foreign-based offerors must submit firm prices, Canadian customs duties, excise taxes and Applicable Taxes excluded. Canadian customs duties and excise taxes payable by Canada will be added, for evaluation purposes only, to the prices submitted by foreign-based offerors.

B. Unless the Request for Standing Offer (RFSO) specifically requires offers to be submitted in Canadian currency, offers submitted in foreign currency will be converted to Canadian currency for evaluation purposes. The rate given by the Bank of Canada in effect on the RFSO closing date, or on another date specified in the RFSO, will be applied as a conversion factor to the offers submitted in foreign currency.

C. Although Canada reserves the right to issue the Standing Offer either on an FOB plant or FOB destination, Canada requests that offerors provide prices FOB their plant or shipping point and FOB destination. Offers will be assessed on an FOB destination basis.

- D. For the purpose of the RFSO, offerors with an address in Canada are considered Canadian-based offerors, and offerors with an address outside of Canada are considered foreign-based offerors.

**4.2 Basis of Selection**

**4.2.1 Basis of Selection - Highest Combined Rating of Technical Merit (60%) and Price (40%)**

- A. To be declared responsive, a offer must:
  - (i) comply with all the requirements of the offer solicitation; and
  - (ii) meet all mandatory criteria; and
  - (iii) obtain the required minimum of 24 points overall for the technical evaluation criteria which are subject to point rating. The rating is performed on a scale of 40 points.
- B. Offers not meeting (i) or (ii) or (iii) will be declared non-responsive.
- C. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 60% for the technical merit and 40% for the price.
- D. To establish the technical merit score, the overall technical score for each responsive offer will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 60%.
- E. To establish the pricing score, each responsive offer will be prorated against the lowest evaluated price and the ratio of 40%.
- F. For each responsive offer, the technical merit score and the pricing score will be added to determine its combined rating.
- G. Neither the responsive offer obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive offer with the highest combined rating of technical merit and price will be recommended for award of a standing offer.

The table below illustrates an example where all three offers are responsive and the selection of the contractor is determined by a 60/40 ratio of technical merit and price, respectively. The total available points equals 135 and the lowest evaluated price is \$45,000 (45).

**Basis of Selection - Highest Combined Rating Technical Merit (60%) and Price (40%)**

		Offer 1	Offer 2	Offer 3
<b>Overall Technical Score</b>		<b>115/135</b>	<b>89/135</b>	<b>92/135</b>

	<b>Pricing Score</b>	<b>45/55 x 40 = 32.73</b>	<b>45/50 x 40 = 36.00</b>	<b>45/45 x 40 = 40.00</b>

## PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

- A. Offerors must provide the required certifications and additional information to be issued a standing offer.
- B. The certifications provided by offerors to Canada are subject to verification by Canada at all times. - C. The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. If any of these required certifications or additional information is not completed and submitted as requested, the Standing Offer Authority will inform the Offeror of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the offer non-responsive.
