Solicitation Amendment

Title Aviation Professional Services

Solicitation Amendment No. 004

This solicitation is hereby amended to provide the following questions and answers.

Q9. Rated criteria R3 relates to expertise and knowledge of the global and Canadian Air Transportation system notes that is based on resources noted in M3 – but M3 is related to project management. There appears to be a mismatch – can you please confirm how M3 and R3 are related?

R9. M3 (mandatory criteria) will assess the requirement for the resource(s) to possess project management experience/expertise. Furthermore, R3 (rated criteria) will assess the requirement for the resource(s) presented in M3 to have expertise and knowledge of the global and Canadian air transportation system where points will be allocated based on the points rated scale in the scoring column for that rated criteria.

Q10. Can more than two projects be provided per rated experience category?

R10. Yes, more than the requested and required number of projects can be provided, however, the bidder must indicate the two projects that should be evaluated as per the criteria of the rated requirement of those projects being described.

Q11. Can additional resources be listed for the mandatory requirements that do not meet the minimum 10year requirement (as long as there is at least one resource that does)?

R11. Additional resources can be listed for the mandatory requirements. The resource or resources will be assessed, however, must meet the requirement to be assessed further in the evaluation of the proposal. The resource or resources that meet the mandatory requirement(s) will be assessed further in the evaluation of the proposal.

Q12. With regards to the experience of the contractor, the RFP references 'cumulative' experience for all three roles. Please could you confirm as to whether this cumulative experience can be across multiple individuals for maximum points (e.g. two individuals with five years' experience each), or whether each individual submitted must have 10 years' experience?

R12. The experience being sought is not specific to a role but rather an overall need to meet the requirements for the work to be undertaken. For each requirement, the minimum period of cumulative years must be for each resource submitted for each of the criteria as listed and not the total number of years for the number of resources submitted. Each resource will be evaluated against the criteria listed. Multiple resources may be submitted, however, each must meet the minimum requirement and will be evaluated as indicated in the requirement.

Q13. With regards to R3, please could you confirm whether 'combined' experience can be the experiences of multiple individuals to receive maximum points (e.g. two individuals with ten years' domestic experience each, and two different individuals with ten years' international experience each)?

R13. Points will be allotted for R3 (rated criteria) based on the years of experience and must be for the resource or resources cited in M3 (mandatory criteria). The resource or resources will be individually evaluated based on the points allotment for experience and knowledge as described under R3(a) and R3(b).

All other terms and conditions of the solicitation document remain unchanged.

All enquiries concerning this amendment are to be forwarded to:
