The amendment to the bid solicitation is to address the enquiries received:

Response(s) (R) to Question(s) (Q)1:

Q.1. We have a question regarding the sample drop off location being within 25 km. Unfortunately, our lab falls outside of that range and look to have that aspect extended if possible.

R.1. Environment and Climate Change Canada (ECCC) is firm on sample drop-off location being within 25 km of the ECCC office location listed in M4, Mandatory Technical Criteria found in Attachment 1 to Part 4. This is to ensure the chain of custody is maintained and therefore bidders must demonstrate compliance by completing Attachment 4 to Part 4 to be considered responsive.

Q.2. We also wanted to ensure we could look to bid on a portion of this work, rather than the entire needed requirements? Or would it be best for us to work with another lab to accommodate things entirely?

R.2. Bidders must meet all mandatory criteria found at Attachment 1 to Part 4 to be considered responsive. As stated in the Mandatory Technical Criteria, M1 – M3, Bidders may propose subcontractors in their bids.

All other terms and conditions of the Bid Solicitation remain the same.
