Description of Work:

The Health Products and Food Branch (HPFB) aims to better inform Canadians to help them make healthy choices by modernizing business efficiency, improving data analytics capacity, alternating service delivery models and enhancing regulatory transparency and openness. HPFB will make transparency the default way of doing business, while respecting the legitimate interest of businesses as necessary, protecting privacy and meeting other legal obligations. The main objectives have been to make data analysis and data sharing more efficient for the stakeholders to easily integrate data from the HPFB into their work. HPFB plans to continue investing in various IT projects to support the development and implementation of Investment Plan Projects.

As such, Health Canada has a requirement for up to three (3) TBIPS Level 2 Database Modeller/Information Management Modeller's (IMDB) and up to four (4) TBIPS Level 2 Information Management Architects (IMA) to offer services across the HPFB on an as and when required basis.

- Bidders must submit a bid for all resource categories
- The work is currently not being performed by a contracted resource

Security Requirement: Common PS SRCL #19 applies

Minimum Corporate Security Required: Designated Organization Screening (DOS)
