APPENDIX B – STATEMENT OF WORK

APPENDIX B: STATEMENT OF WORK

Project	Development of a National Workshop Agreement (NWA) for Early Psychosis Intervention for Canadians (aged 16+), in English and French, to advance consensus on national guidelines or standards.
Background	<p>One in five Canadians will experience a mental health problem or illness every year¹ and one in two Canadians have – or have had- a mental illness by the time they reach 40 years of age.² Before the pandemic began, Canadians reported that their mental health care needs were not met, and evidence shows that this number continues to rise across the country, painting a stark picture of a growing mental health crisis.</p> <p>The word "complex" is used by experts to describe very severe mental illness with other complicated factors that make it significantly challenging to treat, such as intersections with substance use.³ An important area of focus within this population includes individuals who experience psychosis. Psychosis describes conditions that affect the mind, in which people have trouble distinguishing between what is real and what is not. The onset of psychosis typically presents in late adolescence or early adult years. If left untreated, it has the potential to have significant personal, family and societal impacts such as unemployment, financial burden due to treatment, suicide, physical illness, and an overall reduced life expectancy.</p> <p>Early psychosis is the first time a person experiences a psychotic episode. Approximately 3% of the population will experience an episode of psychosis at some point their lives. Early intervention can contribute to improved long-term outcomes, reducing further implications to a person's life and minimizes the risk of the condition turning into a complex mental health situation.</p> <p>Several provinces and health care delivery organizations have developed guidelines for early psychosis intervention. While there have been substantial advancements in early psychosis intervention in Canada, these can vary greatly across jurisdictions.</p> <p>Standards Council of Canada (SCC) is a Crown Corporation responsible for promoting standardization in Canada. Its mandate is to promote efficient and effective voluntary standardization in Canada, where standardization is not expressly provided for by law.</p> <p>Health Canada (HC) has identified six Mental Health and Substance Use Health (MHSUH) priority topics and requires the publication of national standardized guidance that is developed through a consensus-based process with input from affected interested parties, and that is implementable by authorities having jurisdiction, health care organizations, and individual providers.</p>

	<p>To support this work, SCC will leverage the national standards system to deliver the required national standardized guidance and to advance national consensus on standards for MHSUH services. This National Workshop Agreement (NWA) will be one of the six integrated standards-based deliverables of national scope, that will be provided.</p> <p>The SUPPLIER will engage interested parties, as well as those with experience in mental health and substance use health services to lead a consensus-based process to engage in and develop the WA in accordance with SCC's National Workshop Agreement guidance.</p>
<p>Scope</p>	<p><i>Development of a National Workshop Agreement (NWA) for Early Psychosis Intervention</i></p> <p><u>Purpose</u></p> <p>The NWA on Early Psychosis Intervention would explore the set of service standards, clinical standards, and guidelines that exist in Canada and internationally. The goal is to be able to receive the same high quality care package no matter where you are in the country.</p> <p>The NWA will also include guidance on incorporating best practices for providing care that is stigma free, recovery-oriented, evidence- informed, culturally safe, linguistically appropriate, equitable, and inclusive. The guidance will also incorporate anti-racism best practices and address comorbidities.</p> <p>The NWA will include consideration for existing relevant standardization solutions and community-based resources, including references provided by the SCC, such as, but not limited to:</p> <ul style="list-style-type: none"> • EPI Program Standards Final En 2011-04-06 .doc (gov.on.ca) • Standards and Guidelines for Early Psychosis Intervention (EPI) Programs, Ministry of Health Services Province of BC • International clinical practice guidelines for early psychosis • About EPI-SET EPI-SET Research Study Ontario • Canadian Guidelines for Treatment of Schizophrenia and Psychoses • CAN/HSO 22004:2021 Mental Health and Addiction <p>The output of the NWA would include the identification of best practices and creation of a recommendations report to inform future standards development work in Early Psychosis Intervention and/or the adoption of standards that are already in the field.</p> <p><u>Principles</u></p> <p>It is expected that the SUPPLIER will leverage and build on relevant existing standards and documentation in consultation with the expert group or committee.</p> <p>The SUPPLIER will be expected to leverage the virtual operating environment and available tools to develop the NWA.</p>

	<p><u>Timelines and Distribution</u></p> <p>Work is to begin at the effective date of the contract.</p> <p>The NWA shall be developed and published in accordance with the workplan schedule and provided simultaneously in English and French by February 29, 2024.</p> <p>To reduce the financial burden to interested parties, the NWA will be publicly available for viewing and downloading for a period of five (5) years, or the life of the edition, whichever comes latest, at no fee, in both of Canada’s official languages.</p> <p>IP – Any and all Intellectual Property Rights (IPR) contained in the Deliverables shall be the property of the SUPPLIER. The SUPPLIER shall grant SCC and HC a license to reproduce, in whole or in part, for non-commercial purposes, the Deliverables outlined in the agreement.</p> <p>If the SUPPLIER determines that it will not proceed to participate in the related standards development activity, the SUPPLIER agrees that any and all IPR contained in the Deliverables shall be the property of SCC, for the purpose of pursuing standardization goals.</p> <p>The SUPPLIER will retain the right to use the Deliverables and results for continued research and educational purposes without charge, fee, or royalties.</p> <p><u>Engagement</u></p> <p>The SUPPLIER will seek to leverage Canadian expertise and ensure geographic and diverse representation. The SUPPLIER will be required to undertake outreach, public consultation and engagement with relevant parties, including those identified by SCC, such as, but not limited to: MHSUH Collaborative Members, mental health care service providers; researchers, substance use health service providers; provincial and territorial health ministries; mental health and substance use health NGOs; child and youth social services NGOs, people with lived and living experience, Black, Indigenous and People of Colour (BIPOC) communities.</p>

APPENDIX C – TECHNICAL EVALUATION CRITERIA

APPENDIX C: TECHNICAL EVALUATION CRITERIA

Technical Evaluation Process

The technical evaluation for the development of a Workshop Agreement (WA) will consist of:

1. A determination of the compliance of each bid with the mandatory requirements stated in Part A below.
2. Each proposal that meets the stated mandatory requirements will be evaluated against the point-rated technical selection criteria. Bidders must achieve a minimum score of 70% (70 points of a possible 100 points) for the point-rated technical criteria as stated in Part B below. Only proposals meeting these requirements will be considered.
3. In the financial evaluation, tendered prices of the qualified bids will be computed as follows:

$$F = 30 + (21 * (1 + |n|)^{-n})$$

Where,

$$n = (Y - P) / Y$$

P = Bid Price

Y = Internal Budget

The financial evaluation may achieve a maximum score of 30 points.

An Evaluation Committee, consisting of at least three (3) SCC or SCC-appointed representatives, will be formed to assess all bids received in response to SCC RFP# 2023-09.

The committee will be dissolved after the successful completion of their duties in selecting the Bidder with whom SCC will contract for the delivery of the WA for "Early Psychosis Intervention".

The technical evaluation for the successful bidder that will lead the development of the WA will consist of the two (2) phases described below:

4. Part A – Evaluation of Mandatory Requirements. This phase will consist of determining compliance of submitted Proposals against mandatory requirements. Proposals meeting all the mandatory requirements will be considered for the second phase. Proposals that do not substantially comply with all mandatory requirements and / or are substantially incomplete, will be disqualified and not evaluated further.
5. Part B – Evaluation of Point-Rated Criteria. This phase will consist of evaluating the (i) technical and (ii) cost merits of proposals, which meet the stated mandatory requirements, against the point-rated technical selection criteria. Respondents must achieve a minimum score of 70 points (of a possible 100 points) for the point-rated technical criteria, to be considered for the point-rated cost criteria, which will evaluate respondents' financial proposals for a maximum of 30 points. The highest-ranked Bidder will be determined using the highest combined rating of technical merit (70%) and cost (30%).

II. Project team experience in the type of work being proposed

The Evaluation Committee will assess the experience and competence of the Bidder’s proposed Project Team members with respect to the range of activities required for the development of a WA in the context of RFP# 2023-09.

The Bidder must provide examples that demonstrate the extent to which they meet each criterion. The same example may be used to meet various criteria but must be revised accordingly to highlight the context within which it applies. The basis for scoring each criterion is provided in the table below.

III. Distribution and outreach strategy

The Successful Bidder will plan and implement an outreach strategy to be approved by SCC in advance that will ensure appropriate engagement in the development of the WA and subsequently, increase awareness of the publication. Evaluation of each Bidder’s proposed outreach strategy will be based on the Bidder’s preliminary understanding of and connections with the target audience for the WA.

In particular, the Evaluation Committee will assess the depth of the Bidder’s understanding of and connections with the target audience, proposed method(s) of communication, and any proposed complementary materials to facilitate greater awareness, understanding and application of the WA across Canada. Because the project has an accelerated timeline, further points will be given if the proposed project schedule can complete the development of the WA in a shorter timeframe. The basis for scoring the proposed schedule is provided in the table below.
