

RFP-2023-03 – NATIONAL WORKSHOP AGREEMENT FOR THE INTEGRATION OF MENTAL HEALTH AND SUBSTANCE USE HEALTH SERVICES IN PRIMARY CARE SETTINGS. QUESTIONS AND ANSWERS 1

1. Can you provide clarification on the ‘purpose and justification’ section required for the RFP. Given that the need for these standards documents has already been identified and prioritized by the SCC working group, how much detail is required in this section? Is the expectation for a complete literature review and gap analysis on the topic? Or are we to focus more on the approach the bidding organization would like to take and why?

Answer: Bidding organizations should focus their proposals on their proposed approach to delivering an NWA in line with the Statement of Work. Requirements outlined in the Deliverables table (including Stage 1: Preparatory Work; Stage 2: Proposal; etc.) will be included in the contract signed with the successful bidding organization.
