THIS SOLICITATION AMENDMENT IS RAISED TO:

1. Provide clarification and answers to questions from potential suppliers;

THIS SOLICITATION IS HEREBY AMENDED AS FOLLOWS:

- 1) **DELETE ATTACHMENT 2 TO PART 4 - PRICING SCHEDULE Section 2.1**

Item	Delivery Point	Quantity Required (A)	Firm Unit Price (B)	Sub-Total (C = A x B)
001	25 CFSD Montreal	11	\$	\$

REPLACE with:

Item	Delivery Point	Quantity Required (A)	Firm Unit Price (B)	Sub-Total (C = A x B)
001	25 CFSD Montreal Underwater Hydraulic Power Unit	11	\$	\$
002	25 CFSD Montreal Spare Individual Underwater Hydraulic hoses	10	\$	\$

- 2) **DELETE ANNEX B - BASIS OF PAYMENT Section 2.1**

Item	Delivery Point	Delivery Date	Quantity Required	Make/Model	Firm Unit Price
001	25 Cfsd, 6363 RUE NOTRE DAME E MONTREAL QC H1N 2E9 CANADA	[Date to be detailed in the resulting contract]	11	To be added in the resulting contract	\$(Cost to be detailed in the resulting contract)

REPLACE with:

Item	Delivery Point	Delivery Date	Quantity Required	Make/Model	Firm Unit Price
001	25 Cfsd, 6363 RUE NOTRE DAME E MONTREAL QC H1N 2E9 CANADA	[Date to be detailed in the resulting contract]	11	To be added in the resulting contract	\$(Cost to be detailed in the resulting contract)
002	25 Cfsd, 6363 RUE NOTRE DAME E MONTREAL QC H1N 2E9 CANADA	[Date to be detailed in the resulting contract]	10	To be added in the resulting contract	Cost to be detailed in the resulting contract

- 3) **DELETE** the solicitation end date June 22, 2023

Replace with July 24, 2023.

4)

Question 1	Foam-filled tires offer several key benefits including maintaining optimal tire pressure, providing consistent tire deflection and footprint, and increasing traction and stability. Foam-filled tires last longer than air-filled and manufacturers currently use this type of tires for this application. Will Canada accept Foam-filled tires?
Answer 1	Foamed filled is acceptable.

Question 2	As per item A1.1.2.2, <i>Three (3) underwater hydraulic hoses must be able to join together and work at 300ft (91m) length without affecting tool and UHPU performance?</i> Connecting hydraulic hoses together when going over 150' in total length is not recommended. If you need any length over 150' you must use a continuous length of 3/4" x 1" hydraulic twin-line hose. Please advise.
Answer 2	We will remove the statement A1.1.2.2 and replace with Underwater Hydraulic hoses must be compatible with the current fleet of underwater hydraulic tools and UHPU.

Question 3	<i>A1.1.2.3 The underwater hydraulic hoses must be fitted and secure with a white nylon sleeve that will provide abrasive protection.</i> I see you require a white nylon sleeve to be wrapped around the hoses to provide outer protection. We use chafing gear for our diving umbilicals that velcros down the length of the hose. We use zip ties roughly every foot to foot and a half for extra security. Would that be acceptable?
Answer 3	That is acceptable.

Question 4	I am writing to ask if you are willing to accept a partial bid on the power packs or the tools-only portion of the proposal. This is concerning W8476-226528/B Bid.
Answer 4	No, we will only accept 1 bid for the power unit included hoses and spare hoses.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
