AMENDMENT 002

PURPOSE:

The purpose of this amendment is to answer questions from potential bidder:

- Q1)** Will UmeVoice need to provide 7 microphones for our teamed bid as well as 7 microphones for their microphone only bid they are doing separately
- A1)** A contractor who wishes to bid for the individual component, and has their component included as part of a teamed bid may submit one set of samples provided that this is agreed upon by both bidders and the samples are identical in form and function in each case.
- Q2)** With the items coming from three locations, the upcoming U.S. Holiday, and a major Hurricane about to hit this weekend and the disruption of parcel delivery could these components still be considered in the bid if they make it to you all after 7 September?
- A2)** The Closing date for this RFP has been extended to 11 October. If packages are enroute and tracking information is provided before the closing date and time, the bid will be considered.
- Q3)** With the liner and ear seal components we want to include as a whole system with our in-ear and ANR protection could we be made aware of the helmet sizes we may need to integrate in so that we send the proper size for the HGU-56/P and 190A helmets?
- A3)** Thank you for your question. Upon review of the table from page 11 of the solicitation document, the use of the wording "of each size" is ambiguous. It may be clearer to further specify the samples required with relation to the Helmet configs and sizes that Canada intends to put through testing and evaluation. The following table will therefore be acceptable to utilize when sending sample instead of the table found on page 11 Para 4.1.1.1.2.

Helmet Model	Size of helmet under Test	Existing system earphone impedance	Mic	CEP
HGU-56/P	Medium	19 Ω	150 Ω/amplified electret	mono
HGU-56/P	Large	19 Ω	5 Ω	mono
HGU-56/P	Large	19 Ω	150 Ω/amplified electret	Binaural
HGU-56/P	Extra Large	19 Ω	150 Ω	Binaural
190A	Medium	300 Ω	150 Ω	mono
190A	Large	19 Ω	5 Ω	mono
190A	Large	1200 Ω	150 Ω/amplified electret	mono
Total Samples requested	-----	7	7	7 with earplugs representing all sizes available

Notes:

1. Canada offers all helmet sizes to our Aircrew so bidders should specify if any sizes are incompatible with your product.
2. If the bidder does not offer parts in all configurations, they are still invited to bid and requested to send samples of their product in the same total numbers requested (7 samples). The samples may not be tested in all configurations and therefore have a slight disadvantage but will be considered for the compatible configuration(s) if they show superior performance.

All other terms and conditions remain unchanged.
