## **Amendment 002**

This amendment is raised to:

- A. Answer questions from bidders

### **A. Questions and Answers**

**Q1:** In order to disassemble the loglifter and sandblast all frame components, all hydraulic and mechanical components must be removed. Should items 3.1 and 3.2 of section “3.0 Scope of Work – as and when requested work (work authorizations)” be included in section “2.0 Scope of Work – Mandatory Work”?

**A1:** The hydraulic and mechanical components may be removed by PCA prior to pickup by the contractor. However, PCA may require the contractor to perform this work if required.

**Q2:** On drawing AD-1034-S, there are no table with parts description for parts #1 to #51. Is this information available?

**A2:** No parts list is available for drawing AD-1034-S.

**Q3:** Item 2.10 of Annexe A – Remove and replace top and bottom tracks of boom carriages. Could you send details of the part to be replaced? The drawing AD-1034-S refers to this part as #4, but there is no table description of what that part would be.

**A3:** See provided image package for reference prior to site visit.

**Q4:** Item 2.11 of Annexe A – Fabricate sixteen “feet”. Considering the short time frame (1 day) between the site visit and the closing of the solicitation, is it possible to have more information about the “feet” (photos, drawings, requirements) to be fabricated?

**A4:** A basic drawing has been found and provided. Also, see provided image package for reference prior to site visit.

**Q5:** Item 2.12 of Annexe A – Fabricate thirty-two rail clamps. Considering the short time frame (1 day) between the site visit and the closing of the solicitation, is it possible to have more information about the clamps (photos, drawings, requirements) to be fabricated?

**A5:** No drawings are available. See the provided image package for reference prior to site visit.

**ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED.**
