

## **Notice of Proposed Procurement (NPP)**

**Title:** The State of Plastics Science in Canada.

**Solicitation Number:** 5000074993

**GSIN:** B101A

---

### **Description:**

#### **1. Summary**

Environment and Climate Change Canada requires an analysis to review and assess the state of plastics science research in Canada and to inform future science and research activities for detecting plastics in the environment, understanding and mitigating potential impacts on wildlife, human health, and the environment and advancing sustainable plastic production, recycling, and recovery.

Basis of Selection - Highest Combined Rating of Technical Merit (70%) and Price (30%).

Environment and Climate Change Canada has established funding for this project at a maximum amount of \$95,000.00 (in Canadian dollars) – taxes included.

The period of the contract is from contract award to 31 March 2024.

#### **2. Security**

There is no security requirement associated with this solicitation.

#### **3. Integrity Provisions**

Bidders must provide a list of names, or other related information as needed, pursuant to section 01 Integrity Provisions of Standard Instructions 2003.

#### **4. Service Requirements**

For services requirements, bidders in receipt of a pension or a lump sum payment must provide the required information as detailed in article 2.3 of Part 2 of the bid solicitation.

#### **5. Trade Agreements**

The requirement is not subject to the Trade Agreement.

#### **6. Social Procurement**

Environment and Climate Change Canada supports the Government of Canada's social and economic objectives, including increasing the participation of businesses from under-represented groups in government procurement opportunities. As such, bidders owned or led by Canadians from under-represented groups, such as women, LGBTQ2+ persons, persons with disabilities and persons from visible minorities are encouraged to submit a bid to this opportunity.

## **7. Debriefings**

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days from receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

## **8. Official Languages**

Environment and Climate Change Canada provides procurement services in both official languages. Bidders may submit a bid in the official language of their choice.

## **9. Additional Information**

For additional information, interested suppliers must contact the Contracting Officer named in this Notice.
